## **RESTORATION TAX ABATEMENT:**

Ed Baker presented five new Restoration Tax Abatement applications. He also informed the board that Orleans parish has begun to process more than 100 applications, but is still 60-70 behind. Orleans Mayor's office has new criteria for processing the applications. Mr. Shaddock asked a question concerning the \$73,090.00 assessed value before the project began on page seventy-five and the \$925,000.00 assessed value of the property to be considered for tax abatement on page seventy-six. Ed said that the \$925,000.00 is not the assessed value, but the actual value of the property and the error has been corrected.

- **A motion was made by Mr. Montelepre, and seconded by Mr. Vickers to approve all new applications. Motion carried unanimously.**

Ed Baker presented six renewal applications. Chairman Green asked if there had been any changes on the properties. Ed indicated that all of the property owners have all certified that they have not paid taxes on the improvements and all local endorsement resolutions have been received

- **A motion was made by Mr. Bourg, and seconded by Mr. Collins to approve all renewal applications. Motion carried unanimously.**

John Jernigan presented 133 renewal contracts. Chairman Green reminded the Board of the pending lawsuit Bunge North America has against the board. John Jernigan informed the board that the renewal contract in question has nothing to do with the issues surrounding the law suit. Mr. Lucas suggested that in light of the law suit, the renewal contract be deferred until the litigation with Bunge North America is resolved. Mr. Montelepre commented that his understanding is that the two applications are not connected, and he doesn't see the significance in deferring the renewal application. Mr. Manning gave an overview of the legalities in relation to the renewal contract. Mr. Bourg stated that he doesn't see the relevance for holding up one contract based on the status of another. With that statement, Mr. Bourg made a substitute motion to approve the application. The first motion made by Mr. Lucas to defer the application, died for lack of a second.

- **A motion was made by Mr. Bourg, and seconded Mr. Montelepre to approve the renewal application for Bunge North America, Inc. Motion carried 12-2 with Mr. Lucas and Mr. Knapp abstaining.**

John Jernigan updated the board on the current status of IC Railmarine Terminal Companies manufacturing status. Mr. Lucas reminded the board that the original application approved by the board was an application for manufacturing, and suggested the board deny any application brought before the board where manufacturing no longer exists. Mr. Murano commented that he remembers when the application was approved and also stated that the application would not have been approved if it was not for manufacturing. Mr. Leonard, representative for KPMG addressed the board along with the president of IC Railmarine Terminal Company. Mr. Manning stated that legally, the rules prohibit approving this renewal application.

- **A motion was made by Mr. Lucas, and seconded by Mr. Murano to deny the renewal application for IC Railmarine Terminal Company. Motion carried 13-1.**

John Jernigan informed the board that Ormet Primary Aluminum Corporation has temporarily closed down its production line however, 200 people are still employed.

- **A motion was made by Mr. Friend, and seconded by Mr. Collins to approve the renewal application for Ormet Primary Aluminum Corporation. Motion carried unanimously.**
- **A motion was made by Mr. Montelepre, and seconded by Mr. Vickers to approve the remaining renewal applications. Motion carried unanimously.**

**RENEWAL LIST NOT AVAILABLE**  
**(see hard copy presented at the board)**

Laverne Jasek presented 131 new miscellaneous capital addition applications. Chairman Green noted that nothing was listed in the explanation section of the application for Mermentau Rice, Inc. Laverne responded that the company sent her seventeen pages of allowable equipment. In the Future, Laverne agreed to submit a one page detailed description of the equipment that is being added. Ed Baker asked the board if they would be interested in receiving a disc with all of the information on it. The board reiterated that all they want is an explanation of what is being added. Chairman Green also questioned the exercise equipment listed on the application for Noble Plastics. Mr. Murano commented that a lot of companies now have places for their employees to work out.

Mr. Lucas questioned if United Hardwood was a regular lumber company, where the lumber is cut? Laverne answered that they do the kiln drying, and millwork.

Laverne also informed the board that the renewal application for Progressive Stamping & Plating, Inc. was received in the office late, but after checking office records, she found out that it was actually received on time, and the delay was due to a mail problem, therefore she is making adjustments to the date from 1yr/5yrs to 5yrs/5yrs.

- **A motion was made by Mr. Montelepre, and seconded by Mr. Vickers to approve all miscellaneous capital addition applications. Motion carried unanimously.**

## **INSPECTIONS AND AUDITS**

Mike Williams gave a recap of completed inspections and audits for the first quarter. The report consists of all the inspections that Ms. Rester has done as well as other staff employees. Also, included is the Enterprise Zone Quarterly Employee Certification Report. Chairman Green asked if the 325 inspections are considered practical if you consider last years audit by the Legislative auditor, and their chief complaint, which was that not enough inspections were being done. Ed Baker gave clarification on the difference between onsite inspections and the employee certifications as being two different operations. Marylyn briefed the board on the procedure for employee certifications and the problems encountered. Mr. Montelepre pointed out that the objective of the inspections is not to catch people doing wrong, but to insure compliance. There is certainly a number based on probability and statistics of how many inspections to do, how often, and which employers.

## **NEW BUSINESS:**

Policy and Rules Committee meeting is scheduled for November 18, 2003 at 1:30 at the Department of Economic Development to address Industrial Tax Exemption program rules. Ed Baker reported that the legislative auditors are now auditing the Quality Jobs program and may have been present at the meeting. Mike Williams explained the reason for this is to determine the Economic impact of the incentives programs and they will be auditing three Economic Development programs per year. Mr. Knapp enlightened the board a little further by telling the board that it is not just the Economic Development programs being audited, but that a number of different bodies were looking at all the State's programs to see all fiscal benefits and an analyst of which programs were creating the most jobs and having the best returns. They were really trying to come up with two things, a budget of tax incentives to know how much is going out and what the cost is in total verses the economic impact that is being created in the economy on an annual basis. What we have is a team putting together an in dept analysis of five programs. Only three other states have tried to look at this. The work will determine how other state incentive programs are working compared to ours with hopes to improve our legislation to see better benefits. The first reports will come out in 2005.

A confirmed decision by the board was not in favor of the scanned agendas on cd.

- **A motion was made by Mr. Montelepre, seconded by Mr. Lucas to accept the budget report as submitted. Motion carried unanimously.**
